## HANNA VERY ILL

HIS PHYSICIANS HOLD OUT VERY LITTLE HOPE.

## RALLIES THIS MORNING

His Temperature is Yet High, and the Only Hope for Life is That the Fever May Soon be Abated.—Medical Skill is Doing its Utmost to Save the Distinguished Patient.

Washington, Feb. 13.—The following bulletin was issued this morning by Senator Hanna's physicians: "Hanna had a comfortable night. The temperature is higher, 105, and pulse 120, respiration 32. He is taking nourishment well."

Washington, D. C., Feb. 13.—Senator Hanna shows wonderful vitality. The rally yesterday from a sinking spell is considered wonderful. Throughout the night Oxygen was given the patient at intervals of one hour. He does not talk and remains drowsy. The fact that his temperature was only slightly reduced after sponge baths was a discouraging feature of the night in the patient's struggle for recovery. A hard fight is being made to reduce the fever. It is not believed that the Senator can long withstand the fever at so high a point as that shown in the latter part of the night and this morning.

The following bulletin was issued at noon today: "Senator Hanna is resting easy. Temperature 103.8; pulse, 115; respiration 34; continues to take nourishment well."

Washington (2:00 p. m.)—At two o'clock the physicians decided to resort to more Oxygen.

## WAR MANEUVERS

THE FLEET OF EACH IS KEEPING THE OTHER GUESSING.

## CHINA UNEASY

Nations Declare Their Neutrality.—The Chinese Court is Ready to Leave Peking Fearful as it is of Invasion.—If This Should Occur Many Massacres May Follow.—The Day's Developments.

Yokohama, Feb. 13.—It is reported here that the Russian war ships Grobooi, Russia, Rurik and Botatyr sank the Japanese merchant steamer Akoura off Hokkaido, February 11th.

New York, Feb. 13.—The London correspondent of the Herald cables that the St. Petersburg correspondent of the Daily Telegraph is quoted as having information for stating that if the fortunes of war prove adverse to Russia a diversion is expected from Germany which may lead to far-reaching results. A St. Petersburg correspondent further reports that the German government will aid Russia diplomatically in any action taken to bring the alleged evacuation of Wei Hai Wei before the Hague tribunal. "Germany's fixed resolution is to win back Russia's friendship," concludes the dispatch.

St. Petersburg, Feb. 13.—The Associated Press is authorized to deny the report that Japanese troops landed at Port Arthur with the loss of two regiments. Nothing is known here officially of the movements of the Vladivostock squadron, but reports that it has sunk the Japanese transports off Wansong and destroyed the Hakodeta is generally discredited, it being found impossible for the squadron to be in the two places at one time. If this story be true, it is generally believed that the Vladivostock squadron will be able to come south by the eastern coast of Japan and cause enormous havoc and ultimately effect a juncture with Virevices squadron, which is now on its way to the far east from Europe.

Tokio, Feb. 13.—The Chinese Government yesterday proclaimed its neutrality during the Russo-Japanese war.

Germany Declares Neutrality.  
Berlin, Feb. 13.—The Imperial Chancellor Count Von Buelow in the government's official decree today issued the following proclamation: "In consequence of the official declaration of war between Russia and Japan it becomes the duty of every one in the German empire, in the colonies and also Germans residing abroad, to observe the strictest neutrality in all relations."

Neutrality of China Respected.  
Washington, Feb. 13.—The state department today issued this statement: "After a preliminary exchange of views between this government and other powers interested in Chinese matters, the department on the 10th of February sent the following instructions to the American representatives in St. Petersburg, Tokio and Peking. You will express to the ministers of foreign affairs the earnest desire of this government that in the course of military operations between Russia and Japan the neutrality of China shall be respected by both parties, and the area of host-

ilities shall be localized as much as possible, so that the least possible loss to commerce and the intercourse of the world shall be occasioned."

London, Feb. 13.—Official advices from Tokio to the Japanese legation say that the Russian minister, the staff of the legation, the Russian legation guard and all other Russians at Seoul have left the Korean capital on the same train yesterday bound for China via Chemulpo guarded by Japanese troops and gendarmes.

Washington, Feb. 13.—There is grave danger of the flight from Peking of the Chinese court if it is not speedily convinced that there is no danger of an invasion of China by one or the other of the belligerents. The result of this flight would certainly be general uprising against foreigners that might result in massacres.

Port Said, Feb. 13.—The native press is jubilant at the Japanese successes and urges Turkey to take advantage of Russia's predicament to declare war on Bulgaria with the object of administering a lesson to that country and recovering southern Roumania.

London, Feb. 13.—The owners of a British coal laden steamer have been advised that vessels have been detained by Russian authorities at Port Arthur. Russian soldiers have been placed on board the vessel and her British captain and crew have been sent to Chee Foo.

Semi-officially the Temps says the cabinets of London, Paris, and Berlin are in accord upon Secretary Hay's note. The three powers agree in giving the note a construction favorable to China's proclaiming her neutrality and also that this neutrality be recognized and respected throughout the period of hostilities, but that owing to special conditions prevailing in Manchuria the latter cannot be included in this declaration of Chinese neutrality.

## MINING STOCK BOOMING.

J. S. Lenox and I. B. Rose Returned Last Night From the Mines.

J. S. Lenox and I. B. Rose returned last night from the mines in the mountains west of here and report all the properties in an excellent and most flourishing condition. They brought with them some of the lately discovered ores on the property of the Mesalero Mining and Milling Company, and also some specimens from the property of the Old Governor's Copper Company. All of these specimens can be seen now by calling at the mining exchange on Main street. One of the nuggets brought in is particularly interesting and valuable as it foretells a great future for some of this property. The nugget is as large as a quail's egg, and to all appearances is about half pure gold. It is certainly a beauty.

Arrangements will also be made in the very near future to put on a train of teams between Roswell and the Mesalero property to haul coal directly from the mines to Roswell and place it on sale here. The coal is a most excellent quality, and there will be a big sale for it just as soon as it is put on the market. This will be where you can lay in your supply of coal for the coming winter at prices that will not be extortionate, and the quality of the coal is the very best.

## DAMAGING TESTIMONY.

Brought Out Today in the Trial of Dewey and His Cowboys.

Norton, Kan., Feb. 13.—In the trial of Chauncey Dewey and his two cowboys today some damaging testimony was brought out by the state. Beech Berry testified that on the day of the killing at the Berry farm he saw McBride from behind a water tank rise and shoot Burchard Berry. He stated also that it was Dewey who shot Roy Berry in the jaw. The witness said that he was himself shot at by Wilson from behind a wall. Berry said he ran behind the barn while the three men kept shooting at him.

## BURTON'S CONTENTION

NO QUESTION OF GOVERNMENT INTEREST WAS INVOLVED.

## ARGUING DEMURRER

The Kansas Senator Begins His Defense in the United States District Court in St. Louis To-Day—Like His Comrade Dietrich, He Hopes to Escape on a Technicality.

St. Louis, Mo., Feb. 13.—Argument on the demurrer of U. S. Senator Burton of Kansas, to the indictment charging him with using his influence to prevent the issuance of a postoffice fraud order against the Rialto Grain and Securities Company and receiving for his services \$2,500, began in the U. S. District court here today. Senator Burton's contention is that the extent of the United States interest in the matter was in the issuance of an order that would serve to stop the transmission of mail to and from the company, and that no question of governmental interest or policy was involved.

## Missionary Meeting.

The Woman's Missionary Society of the Presbyterian church met with Mrs. J. H. Charles on Thursday afternoon. The society was organized at the home of Mrs. Charles two years ago, and has increased in interest and members until it has become one of the strong factors in the work of the church.

Mrs. Gamble was the leader of the day for Home Missions and read an account of the early experiences of the Hoopa Indians and the founding of their mission school which recalled the story of Ramona.

Mrs. Dempsey told of the work among the Mojave Indians, and she spoke of her personal acquaintance with the missionary workers in that field.

Miss Fannie Wallace read a story of a little Mexican girl's effort to enter a missionary school which was full of pathos.

Mrs. Witt had charge of the program devoted to Foreign Missions, and had gathered important facts regarding China.

Mrs. Harding read a valuable paper on the Chinese in America, that was supplemented by Mrs. Garrard with some of her own experiences in a Chinese Sunday school.

Miss Holt gave a carefully prepared paper on the religions of China and Mrs. Norvell read an interesting sketch of "Life on LaFayette Compound."

Envelopes were distributed for the silver anniversary offering towards the boys' school at Santa Fe.

A social half hour with refreshments followed a meeting which had been thoroughly enjoyed by every one present.
